

Severe Weather events impact service in parts of the Illawarra and Southern Tablelands Districts of New South Wales and part of the Australian Capital Territory.

As previously notified, normal operations in parts of the Illawarra and Southern Tablelands Districts of New South Wales and part of the Australian Capital Territory were affected by a series of severe weather events on or about Saturday 4 June 2016 through to Monday 6 June 2016. The telecommunications network in these areas have experienced high levels of damage that resulted in delays to installation and repair activities on a significant number of services. Due to the extent of damage to the network, the impact in the affected region has been greater than initially estimated, and as a consequence of the continued weather effects, the expected recovery date has now been extended to 11 September 2016.

Based on current information, the resumption date of normal service operations is expected to be 11 September 2016. This date is indicative only; customers should anticipate that some further delays may occur. QTelecom regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.

Services encompassed in this exemption are in the area bounded by and including, but is not limited to, the area starting at Bellambi Point following the coastline south past Wollongong to Bombo. From Bombo the area turns southwest past Bungonia to Currawang, south to Tinderry then northwest to Brindebella. The area heads northeast to Murrumbateman, east to Quialigo, northeast past Oakdale to Warragamba, southeast to Leppington and northeast to Cabramatta. From Cabramatta the area turns southeast past Moorebank to Engadine, southwest to Appin and then southeast back to Bellambi Point. All suburbs and towns serviced within these boundaries are encompassed in this exemption.

Services in the area mentioned above with phone numbers in the following number ranges may have been affected:
